

# Grow your business and save money with Microsoft Azure

## Cost savings

Get unparalleled value and the best return on investment (ROI) for your Windows Server, SQL Server, and Linux workloads. If you're a current Windows Server or SQL Server user, you save even more by using the same licenses. Usage costs stay the same regardless of region, enabling your people to work remotely without adding expense.

### Up to 406%

Three-year ROI moving SQL Server workloads to Azure SQL<sup>1</sup>

### Up to 192%

Three-year ROI running Linux on Azure<sup>2</sup>

### 60%

Reduction in cost versus on-premises solutions<sup>2</sup>

### 80%

Reduction in datacenter spend<sup>2</sup>

## Business growth

Rapidly respond to shifting market demands with reliable remote access, unlimited scalability, and AI-powered tools that streamline operations and improve collaboration. You also enhance productivity with seamless integration with other Microsoft services like Microsoft 365.

### Up to 150%

Increase in work output when automating and scaling processes<sup>3</sup>

### 85%

Reduction in outage downtime<sup>2</sup>

### 40%

Reduction of manual work, enabling employees to focus on higher-value work<sup>2</sup>

## CONNECT WITH US
