

Microsoft Licensing Health Check

Paragon Micro Microsoft Licensing Health Checks help organizations simplify complexity and gain clear oversight, greater control, and confidence in their Microsoft investments.

Gain Clarity on Your Licensing Investment

We assess your current Microsoft agreements, usage, and business objectives to determine whether your licensing aligns with how your organization actually operates today.

Reduce Cost and Complexity

Our experts identify overspend, consolidation opportunities, and simpler licensing models—helping you control costs while improving manageability.

Align Licensing to What's Next

You'll receive clear, best-practice recommendations to support growth, security, collaboration, and adoption, ensuring your licensing strategy is ready for future needs.

Maximize Value and Plan for the Future with Paragon Micro

Paragon Micro helps your organization turn Microsoft investments into measurable business impact.

- ✓ Our experts identify areas to reduce overspend, consolidate agreements for simpler management, and optimize usage across Microsoft 365.
- ✓ With a dedicated account manager and specialists guiding adoption, you gain clarity, confidence, and a roadmap to scale Microsoft tools efficiently.
